NATURAL DRAINAGE BASINS
MAJOR, REGIONAL, SUBREGIONAL AND LOCAL
PLAINFIELD, CONNECTICUT

LEGEND

- Basin Boundary
  - Major Basin
  - Regional Basin
  - Subregional Basin
  - Local Basin
- Local Drainage Basin Direction
  - Outlet Direction
  - Subregional Direction
  - Coastal Direction
- Elevation
  - High - 50 ft
  - Medium - 25 ft
  - Low - 1 ft

EXPLANATION

This map shows the drainage basins and subbasins within the 1:24,000-scale 7.5 minute topographic quadrangle maps published between 1971 and 1978 by the U.S. Geological Survey (USGS). The map includes the drainage basins of the State of Connecticut, with different bounding areas differentiated by their drainage basin area identification. Local basins make up larger subregional, regional, and major drainage basin areas. Isolated subbasins and subbasins within the USGS "Natural Divisions" are shown. The map contains the same data set as the U.S. Department of Agriculture (USDA) National Cooperative Soil Survey.

DATA SOURCES

USGS 7.5 minute topographic quadrangle maps published between 1971 and 1978. This map data is collected from the Soil Survey Geographic (SSG) database. The data is collected at a scale of 1:24,000. The information is collected during the late 1960s to early 1970s. Additional information is available through the website of the USDA National Cooperative Soil Survey. This map was converted by CLEAR in January 2013.
