The exact species or community location falls somewhere within the shaded area and not necessarily in locations. The information is not necessarily the result of comprehensive or site-specific field work and is provided to help provide a general understanding of the species and critical habitats. The map is intended to be used in conjunction with the list of species and critical habitats. For more information about State Listed Species, contact the Connecticut Department of Energy & Environmental Protection, Bureau of Natural Resources, Wildlife Division at 860-423-3161.

**DATA SOURCES**

- **BDI** Data: The data is compiled from sources such as the U.S. Fish & Wildlife Service, U.S. Department of Agriculture, and state and local governmental agencies. This data represents the best available information as of the map preparation date.
- **SUMMARY DATA** and **BDI DATA** - The map is intended to be used in conjunction with the list of species and critical habitats. The database is not complete and is subject to change.
