NATURAL DIVERSITY DATA BASE AREAS

KENT, CT

LEGEND
- State and Federal Listed Species
- Critical Habitat
- State Boundary
- County Boundary
- Town Boundary
- Interstate
- US Route
- State Route
- Street
- Ferry
- Railroad
- Watercourse
- Intermittent Water
- Marsh
- Cranberry Bog
- Dam
- Dugout Channel
- Aqueduct
- Water
- Intermittent Water
- Ponds
- Rocks
- Tidal Area
- Swamp
- Silted Area
- Natural Area Preserves, designated wetland areas or somewhere within the shaded area and not necessarily in Exact locations have been buffered to produce generalized investigations; in some cases locations have been derived result of comprehensive or site-specific field

DATA SOURCES

This map shows potential locations of rare and sensitive species, ecological areas, and other important natural features. The data in this map are from various sources and may not be complete or accurate. The information is intended to help identify areas of conservation interest. Use the CT DEEP website (www.ct.gov/deep/gis) for more detailed information.

EXPLANATION

Note: This map is not intended to be a complete list of all potential locations of rare and sensitive species, ecological areas, and other important natural features. The information is intended to help identify areas of conservation interest.

RELATED INFORMATION

For more information about State Listed Species, contact the Connecticut Department of Energy and Environmental Protection (DEEP) webpage. For more information about the Natural Diversity Data Base, contact the Natural Diversity Data Base Review Committee. To use the map, to download the base map digital spatial data shown on the map information is neither current nor complete. The map is intended to be a tool for identifying potential locations of rare and sensitive species, ecological areas, and other important natural features. Use the CT DEEP website for more detailed information.

For more information about the Natural Diversity Data Base, contact the Natural Diversity Data Base Review Committee. To use the map, to download the base map digital spatial data shown on the map information is neither current nor complete. The map is intended to be a tool for identifying potential locations of rare and sensitive species, ecological areas, and other important natural features. Use the CT DEEP website for more detailed information.
