This Natural Diversity Data Base Areas map depicts general locations of State and Federal Species of Special Concern. It shows the locations of areas that may be impacted by activities such as development or pollution. The map is intended to provide an overview of the locations of these areas and is not intended to be a detailed guide to the specific locations or extents of these areas. The map is not suitable for precise location or distance measurement. No scale is provided on the map. The map is not intended for legal, engineering, or surveying purposes. It is not a legal document and should not be used as such. The map is for informational purposes only and may not be used for any purpose other than that intended. The map is not comprehensive and may not show all areas of concern. The map is not updated and may contain errors or omissions. The map is provided "as is" and without warranty, express or implied, for any purpose. The user assumes all risk for any use of this map. Connecticut Department of Energy & Environmental Protection, Bureau of Natural Resources, Wildlife Division, 2017.
