- Mound
- Cranberry Bog
- Swamp
- Marsh
- Creek
- Drainage ditch
- Canal
- Dam
- Fish Hatchery
- Aqueduct
- Sewage Pond
- Water Tank

**Explaination**
This map details the natural diversity data base areas of New London County, CT. The map includes data on natural resources, land use, and conservation areas. It is useful for natural resource management and planning. The data sources include various datasets from the Connecticut Department of Energy & Environmental Protection and the USGS.

**Data Sources**
- USBIR Map Data: Based on data collected from the USBIR by the NHD program, a national geographic database of streams, rivers, and water bodies.
- Critical Habitat Data: Data on critical habitats for state and federal listed species.

**NOTE:** The data is subject to change and may not be complete. Use this map for general reference only. For more detailed data, contact the appropriate authorities.
