This map depicts general locations of state and federal listed species within the municipalities. The map is intended for educational purposes and should not be used for site-specific searches of listed species and the map is not a substitute for a Natural Diversity Data Base (NDDDB) search. The map may underestimate the true extent of species occurrence and abundance due to the nature of the data used and the scale of the map. The map is not intended to be used in place of the species-specific Natural Diversity Data Base (NDDDB) search.
