EXPLANATION
This map depicts potential locations of rare and sensitive habitats and species of concern in the Natural Diversity Data Base Areas in Preston, CT. The map is intended to be used as a pre-screening tool to determine the potential of a site to contain or be in close proximity to rare and sensitive habitats and species. The information is not necessarily the final determination of the status of a site. For more detailed information, consult the Natural Diversity Data Base along with the required maps and digital data.

DATA SOURCES
- Natural Diversity Data Base - The Natural Diversity Data Base is a comprehensive database of rare and sensitive habitats and species in Connecticut. It includes information on state and federal listed species, critical habitats, and other sensitive areas.
- Map Sources - The base map is provided by the Connecticut Department of Energy & Environmental Protection. The map data is updated regularly to reflect changes in the natural diversity of the area.

USER INFORMATION
- To use the Natural Diversity Data Base, visit the Connecticut Department of Energy & Environmental Protection website for more detailed instructions.
- The map is intended to be used as a pre-screening tool, and the final determination of the status of a site should be made by an expert in the field.

DATE OF MAP: December 2019
