This map depicts natural areas of State and Federal listed species and critical habitat as defined by the United States Fish and Wildlife Service, the New England Fish and Wildlife Deparment, and the National Marine Fisheries Service. The Connecticut Natural Diversity Data Base (CNDDB) along with the required maps and data were used to create this map. The CNDDB is a state database that maintains geographic information about the natural resources of the State of Connecticut. The CNDDB is hosted by the Connecticut Department of Energy & Environmental Protection (DEEP). To obtain additional information or maps, contact the DEEP's Natural Diversity Program Office at 203-777-3500 or via email at natural.diversity@ct.gov. For more information about State Listed Species, contact the DEEP's Natural Diversity Program Office at 203-777-3500 or via email at natural.diversity@ct.gov.
