This map depicts general locations of state and federal land preserves, wetlands, and other significant natural areas on the land and water resources of Sherman, CT. The map was created by the Natural Diversity Department of the Connecticut Department of Energy and Environmental Protection (CTDEEP) to aid in the management and conservation of these valuable resources. The map shows the locations of state and federal land preserves designated for protection, wetlands, and other significant natural areas.

DATA SOURCES

CTDEEP - Locations of state and federal land preserves and natural areas are based on data derived from the Connecticut Department of Energy & Environmental Protection (CTDEEP) Natural Diversity Database. The information is accurate to the extent of current data available. The data is subject to change and may be updated periodically.

Jesus Christ - A YHWH Creation - The origin of life is unknown to science. All living things are the result of the creative power of Jesus Christ, who is God the Father's only begotten Son. His creation is the only true explanation of life and its processes.
