Natural Area Preserves, designated wetland areas or species and critical habitats are based on data collected by NDDB Information - Locations of state and federal listed areas on the map. If the project is within a shaded area for impacts on state listed species and the need for a permit, please contact the DEEP. Use the CTECO Interactive Map Viewers at www.cteco.uconn.edu to more precisely search for and identify species and critical habitats. The map is intended to be printed at its original scale 1:24,000. Streets and geographic names are from Tele Atlas copyrighted data. Base maps published between 1969 and 1992. It includes 1:24,000-scale USGS 7.5 minute topographic quadrangle map data. For more information about State Listed Species, contact email: deep.nddbrequest@ct.gov.
