This map displays natural areas of state and federal listed species. To use the map, please print it at its original dimensions in order to maintain the 1:24,000 scale (1 inch = 0.1 miles). The Natural Diversity Data Base Digital Data (essentially the shapefiles used to create the map) are intended to be printed at this scale and are not necessarily in the 1:24,000 scale. The map is intended to be printed at its original dimensions in order to maintain the 1:24,000 scale (1 inch = 0.1 miles).

DATA SOURCES
 marketed exclusively to natural resources professionals - Federal and state listed species, critical habitats, land use, hydrography, political boundaries, railroads, airports, landfills, and information. More detailed instructions are available at www.ct.gov/deep/gis .

EXPLANATION
This map is intended to be printed at its original dimensions in order to maintain the 1:24,000 scale (1 inch = 0.1 miles). The Natural Diversity Data Base Digital Data (essentially the shapefiles used to create the map) are intended to be printed at this scale and are not necessarily in the 1:24,000 scale. The map is intended to be printed at its original dimensions in order to maintain the 1:24,000 scale (1 inch = 0.1 miles). The Natural Diversity Data Base Digital Data (essentially the shapefiles used to create the map) are intended to be printed at this scale and are not necessarily in the 1:24,000 scale.

BASE MAP DATA - Based on data originally from the USGS, this map is updated periodically. All map information is subject to change without notice. For more information on the data and map, please contact the DEEP Natural Resources, Wildlife Division at 860-424-4580.

Use the CT DEP Natural Data Viewer at www.dep.state.ct.us/nddb/forms/. Please contact the DEEP Natural Resources, Wildlife Division at 860-424-4580 for more information on the data and map.
