Natural Area Preserves, designated wetland areas or locations. The exact species or community location falls under the protection of the Connecticut Department of Energy & Environmental Protection, private conservation groups and the scientific community.

This map depicts general locations of state and federal Natural Area Preserves.

LEGEND
- Critical Habitat
- State and Federal Listed Species
- Natural Diversity Data Base Digital Data
- State Route
- Ramp
- Street
- Ferry
- Railroad
- Watercourse
- Intermittent Watercourse
- Shore
- Drainage Ditch
- Dam
- Dug Ditch Channel
- Shrubland
- Water
- Intermittent Water
- Rocks
- Inundated Area
- Marsh
- Cranberry Bog
- Dam
- Fish Hatchery
- Polygon
- Sewage Pond
- Water Tank

EXPLANATION
Use the CTDEP Interactive Map Viewer at http://www.cteco.uconn.edu to more precisely search for and locate sites in the state DEP area natural diversity.

DATA SOURCES
- Base Map Data: Published by CT DEP, provides geographic reference information, such as county boundaries, town boundaries, highways, water bodies and other features. The base map data can be used in its current state or can be modified by a user.
- Digital Vector Data: Provided by the Connecticut Division of Natural Resources. The digital vector data provides geographic information, such as roads, water bodies, and other features. The digital vector data can be used in its current state or can be modified by a user.
- Digital Raster Data: Provided by the Connecticut Division of Natural Resources. The digital raster data provides geographic information, such as elevation, vegetation, and other features. The digital raster data can be used in its current state or can be modified by a user.
- Natural Diversity Data Base Digital Data: Provided by the Connecticut Division of Natural Resources. The natural diversity data base digital data provides information about natural diversity sites, such as species distribution, habitat conditions, and other features. The natural diversity data base digital data can be used in its current state or can be modified by a user.
