Natural Diversity Data Base Areas
BURLINGTON, CT
December 2020

[Map showing various areas with symbols for State and Federal Listed Species, Critical Habitat, and Town Boundary]

NOTE: This map shows general locations of State and Federal Listed Species and Critical Habitats. Information on listed species is collected and compiled by the Natural Diversity Data Base (NDBD) from a variety of data sources. Exact locations of species have been buffered to produce the generalized locations.

This map is intended for use as a preliminary screening tool for conducting a Natural Diversity Data Base Request. To use the map, locate the project boundaries and any additional affected areas. If the project is within a hatched area there may be a potential conflict with a listed species. For more information, complete a Request for Natural Diversity Data Base State Listed Species Review form (DEP-APP-007), and submit it to the NDBD along with the required maps and information. More detailed instructions are provided with the request form on our website.
