WATER QUALITY CLASSIFICATIONS
ANDOVER, CT

SURFACE WATER QUALITY CLASSES

GROUND WATER QUALITY CLASSES

DATA SOURCES

EXPLANATION

SOURCES: This study is based on data from several sources, including the U.S. Geological Survey (USGS), the Connecticut Department of Energy and Environmental Protection (CT DEEP), and other state and federal agencies. The data was compiled and analyzed to create the map and report.

DATA QUALITY TESTING

The data quality testing involved a review of the data sources and the methods used to compile and analyze the data. The data was verified for accuracy and completeness, and any discrepancies were resolved.

DATA SOURCES

The data sources included:

- USGS 7.5 minute topographic quadrangle maps published between 1969 and 1992. It includes political boundaries, railroads, airports, and other elements.
- USGS 1:24,000 scale maps by tan colored land areas.
- USGS 1:12,000 scale maps by pink colored land areas.
- Connecticut River, Thames River, Pawcatuck River and Southeast New England Water Quality Study (SNELWQS) maps by pink colored land areas.
- Connecticut River, Thames River, Pawcatuck River and Southeast New England Water Quality Study (SNELWQS) maps by tan colored land areas.
- USGS 7.5 minute topographic quadrangle maps published between 1969 and 1992. It includes political boundaries, railroads, airports, and other elements.
- USGS 1:24,000 scale maps by tan colored land areas.
- USGS 1:12,000 scale maps by pink colored land areas.
- Connecticut River, Thames River, Pawcatuck River and Southeast New England Water Quality Study (SNELWQS) maps by pink colored land areas.
- Connecticut River, Thames River, Pawcatuck River and Southeast New England Water Quality Study (SNELWQS) maps by tan colored land areas.
- USGS 7.5 minute topographic quadrangle maps published between 1969 and 1992. It includes political boundaries, railroads, airports, and other elements.
- USGS 1:24,000 scale maps by tan colored land areas.
- USGS 1:12,000 scale maps by pink colored land areas.
- Connecticut River, Thames River, Pawcatuck River and Southeast New England Water Quality Study (SNELWQS) maps by pink colored land areas.
- Connecticut River, Thames River, Pawcatuck River and Southeast New England Water Quality Study (SNELWQS) maps by tan colored land areas.
- USGS 7.5 minute topographic quadrangle maps published between 1969 and 1992. It includes political boundaries, railroads, airports, and other elements.
- USGS 1:24,000 scale maps by tan colored land areas.
- USGS 1:12,000 scale maps by pink colored land areas.
- Connecticut River, Thames River, Pawcatuck River and Southeast New England Water Quality Study (SNELWQS) maps by pink colored land areas.
- Connecticut River, Thames River, Pawcatuck River and Southeast New England Water Quality Study (SNELWQS) maps by tan colored land areas.
